

Training & coaching - Improving local decision makers' competences (Pilot 3)

Written by Szabo Lolita

Friday, 26 October 2012 19:37 - Last Updated Monday, 04 February 2013 10:09

Partners in charge: BurgerlandKreis (DE)

Partners involved: Quedlinburg (DE), Hódmezővásárhely (HU), Prague (CZ), CETA/Bologna (IT), CERRE (AU)

Description: The pilot conducted in each partner region, consists in training decision-makers of municipal institutions on EE management as important aspect of good governance. Cross-sectoral policy making is strongly linked to improved decision-making & planning competences of policy-makers, which shall include EE considerations. Three target groups take part in workshops addressing different themes (decision makers/ facility managers + staff of project partners' organizations dealing with energy issues & projects/ dwelling's users. A set of materials incl. preparation of good practices, adapted local materials & general information supporting the workshops is being assembled.

Aim:

- Strengthen public sphere's responsibility by improving local decision-makers' competence
- Take sustainable, EE-committed measures, by more responsible policy makers
- Sensitize public awareness on EE & RES issues

Timeline: March 2012 - March 2013

Budget: 116 256,00 €
