

**7<sup>th</sup> October 2012, Udine - From 29 September 2012 to 7 October 2012 the 59<sup>o</sup> edition of the Fiera Della Casa Moderna - Modern House Fair, in Udine (Italy) will welcome the GOVERNEE project with representation of CETA.**

Udine's yearly event is dedicated to the modern houses, the building sector, new innovative materials, design, renewable energy resources for housing use (photovoltaic, thermal solar, heat pumps, boilers and domestic biomass plants) and energy efficiency together with solutions supporting the concept of bio-housing and ecological housing.

The Fair has also an intense daily programme of conferences, workshops and seminars, directed to specialists, technicians of the building sector as well as to the general public. CETA, also in representation of GovernEE project, was invited to make a presentation at "Sustainability in pills" seminar widely disseminating the project brochure and information on the project to interested people. The presentation was focusing on GovernEE's Competence Center <http://oc.c.governee.cere.net/> together with the explanation and presentation of the GovernEE Showroom and the planning of the next Energy Days which will be inaugurated by CETA in Bologna, in the course of November 2012.
